

Evannah Williams

*"I started Myrtle Learning towards the end of year 9. At that time, my knowledge in maths was barely at the foundational tier stage with a predicted grade of 3 by the end of year 11. With assistance and direction from Myrtle Learning I moved to the top set in years 10 and 11 making me a candidate for the higher tier maths paper. I owned my learning style and over exceeded expectations for my GCSE results! Myrtle Learning has taught me multiple strategies and built my confidence. I cannot thank them enough for guiding me and bringing me to heights that I had never envisioned."*

Wishing you every success Evannah as you start your 6th form journey.
